MONEY, STOCKS AND BONDS.

Tame and Uninteresting Market, with Very Few Changes at the Close. NEW YORK, July 26.-Money on call was easy, with no loans and no bids what-

ever. Prime mercantile paper 5@612 per cent. Sterling exchange quiet and steady at \$4.85 for sixty-day bills and \$4.8834 for

The total sales of stocks to-day were 43,-

878 shares, including the following: Atchison, 1,900; Delaware, Lackawanna & Western, 2,400; St. Paul, 1,500.

The stock market to-day was a tame and uninteresting affair from beginning to end, and the final changes are entireinsignificant, except in Refineries and Citizens' Gas, which stocks furnished no reason for their move-ments. The traders were inclined to sell stocks upon the expectation that the bank statement would show a material loss in reserve, as it was known that during the early portion of the week the sub-treasury had taken about \$2,000,000 out of the banks. The heavy payments for bonds redeemed, most of which came to New York, did not show in any way up to last night. The sub-treasury was debtor at the clearinghouse to-day, however, over \$6,000,000.

Notwithstanding this disposition, there was very little disposition to trade for either side of the account, and the business done was of the hand-to-mouth order, except in Sugar Refineries. In the last hour an attack was made upon it, which forced its price off to 761s. against 7773 last evening. A partial recovery followed, but it closed at close to the lowest price, and rose less than 1 per cent. There was some pressure in New England, and it touched the lowest price of the week, but closed only slightly lower than last evening. The general list showed the heaviness of last evening at the opening, but failed to move more than 18 for a long time, and while the tone continued heavy there was no other movement than those mentioned. The close was rather heavy at a shade under first prices. Sugar is down 114.

Railroad bonds were also extremely dull and furnished no feature whatever, prices

remaining at the same dead level, while only a few issues were traded in.
Government bonds were dull and steady. State bonds were dull and featureless. Closing quotations were: Four per ct. reg. . 12378 C., B. & Q. . . . . . 107

TRADING AT CHICAGO. Heavy Speculation in Everything at a Higher Range of Prices-Hog Products Active. CHICAGO, July 26 .- A large business was transacted in wheat, and the feeling developed was nervous and unsettled. Prices changed very frequently and rapidly, and ruled higher than the closing figures of yesterday. The opening was 12@340 higher than yesterday, and prices advanced 580 more, then declined 120 under an increased pressure to sell, rallied 15sc, fluctuated somewhat, closed about 1sc higher than yesterday. There was no doubt considerable realizing on the part of the "longs," and "shorts" were frightened and covered freely on the advance. Some advices were received claiming that foreigners were selling at New York. From the Northwest advices were received reporting very hot, dry weather. There was another large day's business transacted in the corn market, and the feeling developed was but a few days, and a still further advance was established on all futures. The influences on the market were about the same as noted for some time past, namely, the continued dry weather and bad crop reports, small receipts and good shipping demand. Trading was immense, outside orders being numerous and the local demand was quite general, both from "shorts" and for investment. Offerings during the early part of the session were small, but after the advance there was free realizing by local "longs," but offerings were well absorbed and the market acted very strong. The signal service reported no rain of consequence in the corn belt, and there was no indication of any, but the weather was reported as cool. The West bought freely today, as did also New York and the East. Local receipts were less than anticipated—370 cars—and for Monday 535 cars are expected. A good cash demand continued to prevail not with standing the late shore ad-

prevail, not withstanding the late sharp ad-

vance, though the inquiry was less brisk

to-day. Oats were active, stronger, with prices generally higher, in sympathy with

corn. There was a large general trade in September and the more deferred futures,

but operators were disposed to let July and

August alone. The first-named month, how-

ever, was easier, due to the light demand

and decline in the cash market. This also

affected August to a moderate exprices advanced deliveries were other favorites, and prices advanced 1c, receded 38@ 12c, again became firmer, and the close was steady at about outside prices. The sentiment generally was bullish, but news from the outside scarce. There was plenty of good buying orders, however, which had a good effect on values. The hog products market attracted more than usual attention to-day, and speculative trading was quite active, influenced by the firmness in the corn market. The feeting was decidedly strong, and a substantial advance in prices was gained and well maintained on all de-scriptions of products. "Shorts" were anxions to provide for their outstanding contracts, especially for January delivery, and the orders from outside parties were more liberal than heretofore and largely on the purchasing side of the market. Sellers were somewhat cautious in naming prices. and in many cases the property was readily accepted when offered at what was regarded as extreme figures. Fluctuations were quite wide, and trading on the part of outside parties was rather unsatisfactory. Trading was mainly in September, October and January contracts, the latter attracting more attention than usual and the trading the heaviest so far this season. The

## INDIANAPOLIS MARKETS.

The Trade of the Week Closing To-Day Was Very Satisfactory in Its Volume.

INDIANAPOLIS, July 26. In most departments trade in the week closing to-day exceeded in volume the expectations of the early part of the week and was decidedly in excess of the corresponding week last year, as has been the case through the preceding weeks of this month. Dry-goods men are receiving their fall stocks and many of the retail merchants are taking advantage of the early opening to secure the most choice patterns of dress goods. Everything in the cotton line rules firm and in woolen goods there is no indication of weakness. Grocers are having a good trade. Sugars are moving briskly and coffees quite freely. The hide market is still advancing in its tendency and more active than at any time in several years past. The flour market is more active, but prices have not advanced materially as yet, but better prices are indicated. Poultry is weak at quotations. Eggs and choice butter firm. Lemons more plenty and easier. Green apples are in active demand, but light in supply. Receipts of blackberries are liberal, but a considerable per cent. of the arrivals are inferior berries. New potatoes and cabbage are scarce and prices firm at quotations given. Other markets are without special feature.

The local market closes in strong position in sympathy with other markets and light receipts. More interest is shown in all cereals than at any time for many months. Track bids to-day ruled as follows:

Harper's Magazine. A young Catholic priest, shortly after beginning his labors in his first parish, re-ceived a visit from one of the older fathers. Anxious to show the progress he had made. he called up a class in catechism for ques-

"Biddy Maloney," he began, "stand up."
A slip of a girl, with blue eyes and brown
freckles, arose in her place.
"What, Biddy," said the young father, "is meant by the howly state of matri-"Shure," began Biddy, glibly, "'tis a say-son of tormint upon which the soul inters to fit it fer the blissid state to come."

"Och!" cried the questioner, angry and mortified; "to the foot of the class wid ye. Biddy Maloney. It's the m'aning of purgatory ye're afther givin'." But here the old priest interposed, with a quizzical smile. "Not too fast, me young brother," he said, restrainingly-"not too fast. Fer aught you and I know to the conthrary, the gurrul may be perfectly

A Gem of a Frock.

Philadelphia Inquirer Quaint and girlish are the rosettes which adorn every other summer gown. They fasten the girdle and belt and hold in place the lace draperies at the throat and upon the sieeves. They are made of every ma-terial conceivable, from the tabric of the gown to the softest of ribbons and the mistgown to the softest of ribbons and the mistiest tulle. I met a young woman a few days since in a gem of a frock, which was punctured here and there with these picturesque decorations. The robe was of delicate heliotrope India, with a scant Josephine skirt and waist. Big rosettes of the silk held the girdle at the waist line both back and front. Rosettes caught into artistic folds the flowing sleeves, appeared upon her high-heeled slippers, and one big puffy fellow of tulle furnished the trimming

for the picturesque nat. Gems for the Months. There have been several lists of stones given as marking the months, and while these are alike in many essentials, there are some points of difference. The best order and the oldest, so far as known, says the Ladies' Home Journal, is the following:

January, the garnet. ebruary, the amethyst. March, the bloodstone. April, the sapphire. May, the agate. June, the emerald. July, the onyx. August, the cornelian. september, the chrysolite. October, the aquamarine.

November, the topaz.

December, the ruby. A Child of Millions.

Marshall Roberts, the ten-year-old son of the late Marshall O. Roberts, is the young-est millionaire in New York. He was given five millions by his father. His mother has the income until he is twenty-one yearsold. when he will be given the principal. He is being very carefully educated and trained. His fortune is invested in real estate. government bonds, and five well-known men are his guardians. His income when he comes into his fortune will be \$200,000 a year, which is almost \$550 a day, or \$22 fer
